### **Overview**

I promise to vigorously fight for your rights in and out of court. I will be the only attorney on your case, personally overseeing every step of the process, so that you are guaranteed the best possible defense. I will use my extensive training, unique background, and experienced staff to make sure that every detail of your case is examined thoroughly. When necessary, I use experts and investigators to ensure a thorough investigation of your case.

### **Early Stages are Critical**

The early stages of any case are critical. For example, if you were arrested for a DUI, you must contact the DMV to schedule a hearing within 10 days of your arrest in order to protect your driving privileges. Remember, the DMV and the court system are two separate entities and require separate procedures and representation. Call us today for a free consultation. I will explain the difference and schedule the DMV hearing for you.

### **Keeping a Clean Record**

I understand the importance of keeping your record clean so you can protect employment opportunities, keep your current job and avoid public embarrassment. My office has dealt with hundreds of cases requiring alternative sentencing, drug diversion programs, expungements, and record sealing. I can also help if you are awaiting an administrative or state board hearing, such as a driving, nursing, contractor, real estate, or teaching license.

### **Experience and Background**

I am a mother of three and have also been a registered nurse for over 20 years. I have been practicing law for over 18 years and I strongly believe that everyone should be afforded a second chance. I have extensive experience with state and federal criminal cases ranging from misdemeanor DUI, drug possession, petty theft, domestic violence, assault, battery, embezzlement, fraud, and forgery cases to more serious crimes such as felony drug possession/trafficking, assault with a deadly weapon, burglary, and robbery. I have an excellent track record and pride myself on fighting zealously for every client.

Finally, as someone who believes that every person deserves fair representation, it has always been, and will continue to be, my goal to provide the best possible representation for an affordable price. I am available to meet with you personally to discuss your case. Please call today to schedule your free consultation or discuss your case, with me, directly over the phone. There is no obligation.
